Jack L. Chalker
TALES OF THE THREE KINGS
Interstellar Adventure!

For centuries prospectors had searched for the fabled worlds of the Three Kings, the lost El Dorado of the Galaxy. Now three widely disparate expeditions have found it, and though marooned by both alien powers and human treachery, will at last encounter the alien minds behind the mysterious triple planetary system—and face a decision that may determine the fate of the entire human race!

THE WORLD TURNED UPSIDE DOWN

edited by David Drake, Jim Baen & Eric Flint

GET READY FOR A GIANT, MIND-EXPANDING DOSE
OF THE BEST SCIENCE FICTION EVER WRITTEN
BY THE GREATEST SCIENCE FICTION WRITERS OF ALL TIME!

When readers first encounter science fiction, they find adventures on other planets and in future worlds, explorations of future technology and its implications, and extrapolations of social trends and warnings of where they may lead—but they also encounter concepts heretofore undreamed of, and the impact on the readers' thinking does nothing less than turn their world upside down.

Now, David Drake, Jim Baen and Eric Flint gather together some of the greatest science fiction ever written in one volume, with each story chosen for a startling breakthrough concept which left readers stunned and changed the course of science fiction.

In the Golden Age of science fiction, the science fiction magazines weren't given titles such as *Astounding*, *Amazing*, *Startling*, etc., for nothing! Pick up this generous serving of the very best of science fiction and prepared to be astounded, amazed, startled—and entertained.

Grantville Gazette

An electronic-only magazine of stories and fact articles based on Eric Flint's 1632 "Ring of Fire" universe.

Volumes 1, 2 and 3 are already available, with Volume 4 on the way.

In Volume 1, one story recounts a religious conference called in Rudolstadt which will determine doctrine for all the Lutherans in the new United States. In Volume 2, stories recount the first air raid launched by the United States of Europe against Paris, among others. In Volume 3, among other stories, the same teenagers who appear in the short story "The Sewing Circle" (in the paperback book, *Grantville Gazette*) move on to conquer the financial world. These magazine volumes also contain factual articles exploring such topics as 17th-century swordmanship, iron, agriculture, telecommunications, and the logic behind the adoption of the Struve-Reardon Gun as the basic weapon of the USE's infantry.

Grantville Gazette magazine can be purchased through Baen Books' WebScriptions service at www.baen.com (select WebScriptions.) Volumes 1, 2 and 3 of the *Gazette* can be purchased as single copies for \$6 each, or you can purchase Volumes 2-4 as part of a \$15 package.

TRAVIS TAYLOR

takes you to the stars!
real science...real science fiction

Travis S. "Doc" Taylor—with a Ph.D. in Optical Science and Engineering & three Master's degrees in Physics, Aerospace Engineering, and Astronomy—now adds *Science Fiction Writer* to his titles.

Warp Speed

(HC) 0-7434-8862-8 \$22.00

"Reads like Doc Smith writing Robert Ludlum; beautiful, vivacious female astronauts, sterling-hearted redneck scientists and evil mercenaries bent upon galaxy-wide conquest. You won't want to put it down. FLUBBELLS AWAY!"
—John Ringo

The Quantum Connection

(HC) 0-7434-9896-8 \$24.00

Steven Montana, computer whiz and hacker extraordinaire, was attending college in Ohio when his world fell apart. A "meteor" onslaught, killing everyone he had ever known, had actually been a brief and still secret war between the U.S and its enemies, using a new, classified warp drive technology. Another secret was that U.S. had been sending faster-than-light ships to other star systems. Most secret of all was that unfriendly aliens were observing the Earth, and while U.S. spaceships were not quite in a war with the unknown aliens, they were shooting at the intruders.

Dr. Taylor has worked on various programs for the Department of Defense and NASA for the past sixteen years. He's currently working on several advanced propulsion concepts, very large space telescopes, space-based beamed energy systems, and next generation space launch concepts. In his copious spare time, Doc Travis is also a black belt martial artist, a private pilot, a SCUBA diver, has raced mountain bikes, competed in triathlons, and has been the lead singer and rhythm guitarist of several hard rock bands.

Robert A. HEINLEIN

"Robert A. Heinlein wears imagination as though it were his private suit of clothes. What makes his work so rich is that he combines his lively, creative sense with an approach that is at once literate, informed, and exciting."
—*New York Times*

A collection of Robert A. Heinlein's best-loved titles are now available in superbly packaged Baen editions. Collect them all.

16th-century Europe ... the intrigue, the courtesans, the magic, the demons ...

a historical fantasy series from masters of the genre

The Shadow of the Lion

Mercedes Lackey,
Eric Flint & Dave Freer 0-7434-7147-4 ♦ \$7.99
Venice, 1537. A failed magician, a fugitive orphan, a reluctant prince, a devious courtesan, and a man of faith must make uneasy alliance, or the city will be consumed by evil beyond human comprehension.

This Rough Magic

Mercedes Lackey,
Eric Flint & Dave Freer 0-7434-9909-3 ♦ \$7.99
The demon Chernobog had almost seized absolute power in Venice until the guardian Lion-spirit awoke to protect his city. But the Lion's power is limited to Venice, and Chernobog has allied with the King of Hungary in besieging the island of Corfu to control the Adriatic. Far from the Lion's help, Manfred and Erik organize guerrillas, as Maria discovers the island's ancient mystic powers. If she can ally with them, she may be able to repel the invaders—but not without paying a bitter personal price.

A Mankind Witch

Dave Freer (HC) 0-7434-9913-1 ♦ \$25.00
In an alternate world where magic works, the Holy Roman Empire still rules Europe, and the Renaissance has come, with very different results. Norway is still pagan, and a sacred relic, the Arming of Telemark, has been stolen from Odin's temple. Without it, truce-oaths cannot be renewed and bloody war with the Empire will follow. Signy, the older stepsister to the King Vortenbras is accused. When she disappears, most think it proof of her guilt. Her only partisan, the Corsair-Captain Cair, knows that she had been carried off and is determined to find and rescue her; he will not only find that magic is very real, and dangerously so, but that he himself has a natural talent for it.
